

Choose the draw tool, and draw the beat you need to put note on
In this case i have draw me 5 beat i wanna set note on on.

From the meny on the left, you can choose between the note you want to put on you notations. and after you have choose the note you simply put it where you want it. Try it out a bit, and test out how it reaks, it can be a bit hard in the start, but when you get use to it it is easy.
