

The image shows a music software interface. At the top, there are playback controls: a double left arrow, a single left arrow, a right arrow, a double right arrow, a square stop button, a red circle record button, and a blue double right arrow with a vertical line (insert point) button. Below these is a piano roll. The top staff has a green background from measure 75 to 120, and a blue background from measure 120 onwards. The time signature is 4/4. The piano roll is divided into five measures, labeled 1 through 5. A blue vertical line is positioned at the beginning of measure 2. A red arrow points from the bottom left towards this blue line. Another red arrow points from the blue line to a small circle on the top staff at the start of measure 2. Below the piano roll, there are three tracks, each labeled "Acoustic Grand Piano". A blue vertical line is also present in the piano roll area, extending down to the tracks.

By this choice Insert tempo change at playback position you get the marker for tempochange just where the song has been stop.
